

Steven M. Gordon, MD

Chairman of the Department of Infectious Diseases, Cleveland Clinic Foundation

Steven M. Gordon is the Chairman of the Department of Infectious Diseases at the Cleveland Clinic Foundation and is Professor of Medicine at the Lerner College of Medicine at Case Western University. Dr. Gordon has an interest in prevention of nosocomial infections and has served on HICPAC from 2003 to 2007.

Dr. Gordon's clinical interests include infective endocarditis, including cardiac electronic implantable device infections as well as opportunistic infections in immunocompromised patients. He is a Fellow in the American College of Internal Medicine and a Member of the Infectious Disease Society of America.

He attended Hamilton College and Cornell University Medical College with a subsequent internship and residency in internal medicine at the University of Chicago Hospital and Clinics. Dr. Gordon was an Epidemic Intelligence Officer in the Hospital Infections Program at the Centers for Disease Control and did a fellowship in infectious diseases at Emory University School of Medicine.
